Stan:

I did mention Donlin in my remarks. I wanted to distinguish the need for a watershed assessment in the Bristol Bay context from those projects going through permitting and NEPA processes elsewhere. I will have one of my staff send you the remarks. And, it was a huge win for the Seahawks – I had expected it to be a closer game as did most everyone.

Hello Dennis,

I regret missing your comments during the opening session of the AK Forum on the Environment. I understand you included remarks about EPA's scientific assessment on the potential impacts of the Pebble project on Bristol Bay, including some statements about whether this approach will apply to other mining projects such as Donlin. Can you please provide me with a copy of your comments for our reference.

Best regards,

Stan

PS – Nice SB win by the Seahawks! It sounds like Seattle enjoyed a fitting celebration.
